Short Bio		
Daniel Murariu, MD, MPH, MBA, FACS, is a double board-certified plastic surgeon with a focus on microsurgery and robot-assisted techniques. He serves as a Clinical Associate Professor at the University of Hawai'i John A. Burns School of Medicine and is the founder of Hawaii Aesthetics & Robotic Plastic Surgery. Dr. Murariu is internationally recognized for advancing robotic applications in reconstructive microsurgery, particularly robot-assisted DIEP flap breast reconstruction, VRAM and gracilis flap harvests, and other minimally invasive flap-harvest techniques. His clinical and academic work has focused on reducing donor-site morbidity while expanding the role of robotics in breast, extremity, head and neck, and pelvic reconstruction. He has authored numerous peer-reviewed publications, lectured internationally, and edited Atlas of Robotic Reconstructive Procedures in Plastic Surgery, the first comprehensive atlas dedicated to robotic reconstructive procedures in plastic surgery. Beyond his clinical practice, Dr. Murariu has been actively involved in international surgical education and capacity-building initiatives. Through Rotary International and collaborative global health programs, he has helped develop reconstructive microsurgery programs in Eastern Europe and has overseen humanitarian grants totaling nearly \$500,000. As President of the Robotic Assisted Microsurgical and Endoscopic Society (RAMSES), Dr. Murariu remains committed to advancing innovation, education, and international collaboration and to helping shape the future of robotic reconstructive microsurgery.
