Short Bio		
Yushi Suzuki is a plastic and reconstructive surgeon at Keio University School of Medicine in Tokyo, Japan. He specializes in lymphatic surgery and supermicrosurgery, with a particular focus on lymphaticovenular anastomosis and advanced imaging techniques. His research focuses on the clinical application of advanced techniques, including lymphatic wire-guided surgery and ultra-high-frequency ultrasound imaging, as well as the development of photoacoustic imaging. He has presented his work internationally and actively contributes to advancing the field of lymphedema surgery.
